

DISCLOSURE OF PHYSICIAN OWNERSHIP NOTICE TO PATIENTS

Please review the information contained in this notice.

The physicians at **Austin Regional Clinic** (ARC) perform procedures at many locations around the Austin area, including hospitals and outpatient surgery centers. In the healthcare world it is common practice for physicians to have a financial ownership interest in the surgery center where they perform procedures. This allows the physician to take part in the total care of the patient, from arrival to discharge. By being a partner in the ownership of the surgery center, the physician is also able to help reduce the ultimate cost to you as the patient.

ARC takes great pride in the selection of the facilities and physicians that provide your care. If you have any questions or concerns regarding this notification, please feel free to call us at **512-ARC-INFO (512-272-4636)**. ARC acknowledges that you have a choice for your healthcare needs and we appreciate your trust.
