

3D/4D Sonograms

ARC South OB

Capture a detailed image of your baby in the womb

ARC is happy to make 3D/4D sonograms available to our established patients. The special 3D/4D sonogram captures a detailed image of your baby in the womb.

This exciting technology is very popular and safe for you and your child.

- Capture this incredible image of your child near your 26th week of pregnancy.
- Make an evening appointment at your convenience; family members are welcome to join you for the appointment.

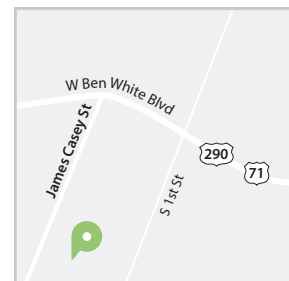

Package One: \$100*

- Four black-and-white high gloss 3D photos

Package Two: \$150*

- Four black-and-white high gloss 3D photos
- Real-time DVD of approximately ten minutes of the event

**Not reimbursable by insurance*
