Accepting New & Established Patients

Jacques Benun, MD

Pediatrics

"I was inspired to be a doctor when, at 6 years old, I had a routine surgery, and the doctors who took care of me made a strong impression on me. I love working with children, and I believe that "less is better." I focus on educating parents about how to take care of their children's health."

Farron C. Hunt, MD, FAAFP

Family Medicine

"I love taking care of all patients and treating the family. I love really getting to know my patients and helping them stay healthy and lead their best healthy life. In my practice, I provide up-to-date comprehensive care and listen to and support my patients' concerns, while focusing on patient safety."

Dominick A. Ruiz, MD

Family Medicine

"I chose Family Medicine because I wanted to care for patients across all age groups, from newborns to the elderly. Being in primary care allows me to work with the same patients and families for many years, as a team, to accomplish their health goals. I believe each individual is unique and requires an individualized approach to care. I work to provide each patient with the time and guidance needed to best help them reach their goals and address their health concerns."
