Primary Care for the Whole Family

Amanda E. Schultz, MD

Board Certified in Family Medicine

"What I love about Family Medicine is that it harkens back to what medicine used to be: the traditional "country doctor" who would make a house call for any member of your family. We pride ourselves in being both a partner in health as well as a family friend, valuing accessibility, transparency, and being present when our patients need us. I approach my patients as I would any member of my own family. I care for them deeply, and I establish easy and transparent working relationships with them."

Thu M. "Stephanie" Nguyen, DO

Board Certified in Pediatrics

"Through my training and experiences, I discovered a love and passion for pediatrics. As a pediatrician, I have the unique opportunity to help advise parents through the adventures of parenthood and guide children through their journey into adulthood. I value the relationships I build with patients and their families. My goal is to work together as a team to provide the highest level of care for each child, focusing on preventive care and evidence-based medicine."

Amanda V. Soza, MD

Board Certified in Pediatrics

"I chose to be a doctor because I wanted to be able to help people and have a lasting impact on their lives. I still remember some of the things my pediatrician advised me to do, and wanting to have that kind of lasting effect, I felt pediatrics was the best specialty for me. Every step along the way has proven to be true. In my practice, open and honest communication, while keeping education of both the child and parents at heart, leads to the best care."
