## HEARING AID SERVICES

Hearing Loss is difficult to accept. Perhaps the loss stems from genetics. Perhaps it comes from your work environment (the drone of machinery for example). And perhaps the loss started with a lifestyle behavior (those earbuds for your iPod or the number of loud concerts you attended in your younger years).

Regardless of the source of origin, hearing loss is treatable. And the new hearing aids are smaller than ever before along with improved technology to make your hearing sharper and longer-lasting. For your convenience, we make **access to hearing aids** easy with appointments available at multiple locations.

### Services Offered

- Assistive Listening Devices (ALDS): FM Systems
- Audiological Evaluations
- Battery Sales
- Ear Molds: Custom - made noise protection earmolds
- Hearing Aid: Sales and Service
