## Accepting New & Established Patients: Kids & Adults

### Lee R. Dockray, MD, FAAP

Board Certified in Pediatrics

*"I remember wanting to be a doctor since elementary school, as I was the oldest of four children and played an important role in caring for my siblings. My job as a pediatrician is to help guide parents through the maze of raising happy, healthy well-adjusted children who live up to their maximum potential. My approach is that children are well until proven otherwise. I identify the problems that exist so they can be treated, but I am careful not to intervene more than necessary. Like everything in life, balance is important."*

### Rodolfo G. Gutierrez-Macias, MD

Board Certified in Family Medicine

*"I chose medicine as an opportunity to integrate service, science and humanism to benefit the people who are in need of health care. I listen to and involve my patients in their health care, providing them with the tools to make their own health choices. The more involved my patients are in their care, the better the outcome."*

### Swapna Manthena, MD

Board Certified in Family Medicine

*"If we could give every individual the right amount of nourishment and exercise, not too little and not too much, we would have found the safest way to health."  
– Hippocrates*
