

Selecting an Ob/Gyn

ARC Cedar Park Medical Plaza

Obstetrician-gynecologists (Ob/Gyns) specialize in the medical care of women, as well as care related to pregnancy and the reproductive tract.

All ARC Ob/Gyn specialist physicians are board certified or board eligible in obstetrics and gynecology, and are licensed to practice in Texas.

Our gynecology program offers routine preventive care that includes:

- Well Woman exams
- Pap smears
- Breast exams
- Contraceptive counseling
- STD screening & treatment
- Menopause symptoms
- Other gynecological screenings

We can assist you with questions relating to menstrual irregularities, painful periods, abnormal pap smears, pelvic pain, hormonal issues, and other concerns.

We provide the following procedures:

- In-office sterilization procedures
- Minimally invasive &
- Robotic da Vinci® Surgery
- LEEP procedure

In our obstetrics program, providers can evaluate preconception health and address issues with conception, if necessary.

They monitor the health of the mother and baby during pregnancy and advise the patient about healthcare choices.

Our comprehensive care will help address routine issues such as:

- Nutrition
- Exercise
- High risk pregnancy care
- Genetic screening
- Fertility

ARC has the added convenience of After Hours Clinic services, open on evenings and weekends, and for those urgent concerns in the middle of the night, we provide late-night nurse triage. An Ob/Gyn from the group is always on call when your doctor's office is closed.

For information or help choosing one of our Ob/Gyn physicians, please visit AustinRegionalClinic.com or call 512-260-1581.

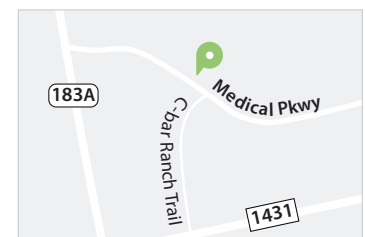

Ob/Gyn Meet & Greet
