

Selecting an Ob/Gyn

Obstetrician-gynecologists (Ob/Gyns) specialize in the medical care of women, as well as care related to pregnancy and the reproductive tract.

All ARC Ob/Gyn specialist physicians & providers are board certified or board eligible in obstetrics and gynecology, and are licensed to practice in Texas.

ARC has the added convenience of After Hours Clinic services, open on evenings, weekends & holidays, and for those urgent concerns in the middle of the night, we provide late-night nurse triage. An Ob/Gyn from the group is always on call when your doctor's office is closed.

Gynecology Services

Our gynecology program offers routine preventive care that includes:

- Well Woman exams
- Pap smears
- Breast exams
- Contraceptive counseling
- STI screening & treatment
- Menopause symptoms
- Other gynecological screenings

We can assist you with questions relating to menstrual irregularities, painful periods, abnormal pap smears, pelvic pain, hormonal issues, and other concerns.

We also provide the following procedures:

- In-office surgical procedures, such as Ablation
- Minimally invasive Robotic da Vinci® Surgery
- LEEP procedure

Obstetrics Services

In our obstetrics program, providers can evaluate preconception health and address issues with conception, if necessary.

They monitor the health of the mother and baby during pregnancy and advise the patient about healthcare choices.

Our comprehensive care will help address routine issues such as:

- Nutrition
- Exercise
- High risk pregnancy care
- Genetic screening
- Fertility
- Lactation support
- Postpartum depression support

ARC also offers on-site sonography services at each of our Ob/Gyn locations. We also offer 3-D mammography at ARC South 1st and ARC Far West primary care clinics.
