Dear Patient,

I hope this letter finds you in good health. I am writing to inform you of an upcoming change which may affect your health care. After 34 years as an obstetrician and gynecologist at Austin Regional Clinic (ARC), I have decided to retire from my current practice of gynecological medicine. ARC has been my professional home for so many years and I will always cherish the relationships I built with my patients and my colleagues.

- **Monday, June 30, 2025, will be my last day seeing patients at ARC Seton Northwest.**

Please disregard this letter if you are not a regular patient of mine, your care at ARC will not change.

It is very important to me as well as ARC that you maintain continuous health care. ARC's electronic medical record system allows your records to be accessed from any ARC location and ensures that both my notes and your medical records will be available for your future care.

At ARC it is our standard that we support our partners and take care of each other's patients. I have complete trust that my colleagues are more than happy to accept you into their practice and will take excellent care of your health. **I recommend the following gynecology and obstetrics/gynecology doctors at ARC Seton Northwest and ARC South Ob/Gyn:**
