

August 4, 2026

Dear Patient,

I hope this letter finds you in good health. I am writing to inform you of an upcoming change which may affect your health care. After 30 years of practicing medicine in orthopedics, I have decided to retire from my practice at Austin Regional Clinic (ARC). ARC has been my professional home for many years and I will always cherish the relationships I built with my patients and my colleagues.

- **Wednesday, September 16, 2026**, will be my last day performing surgeries.
- **Friday, November 20, 2026**, will be my last day seeing patients at Austin Regional Clinic.

It is very important to me as well as ARC that you maintain continuous health care. ARC's electronic medical record system allows your records to be accessed from any ARC location and ensures that both my notes and your medical records will be available for your future care.

At ARC it is our standard that we support our partners and take care of each other's patients. I have complete trust that my colleagues are more than happy to welcome you to their practice and will take excellent care of your health. **I recommend the following orthopedic doctors and advanced practice clinicians (APCs) at these ARC locations:**
