

February 11, 2026

Dear Patient,

I hope this letter finds you in good health. I am writing to inform you of an upcoming change which may affect your health care. After much thought and consideration, I have decided to move out of Austin and therefore will no longer see patients at Austin Regional Clinic (ARC). This decision comes with mixed emotions since ARC has become my professional home.

- **Friday, March 27, 2026, will be my last day seeing patients at ARC Northwest Hills Specialty.**

It is very important to me as well as ARC that you maintain continuous health care. The gastroenterologists at ARC all have full practices, and I am recommending to all my patients to request a referral from your primary care provider (PCP) to a gastroenterologist outside of ARC for continued care.

If you are one of my patients with Inflammatory Bowel Disease (IBD), I encourage you to begin this process as soon as possible to help avoid delays in care. Please also be aware of the following important changes:

- All IBD Infusion treatments at ARC end on March 31.
- Specialty IBD medications prescribed through ARC will no longer be renewed after March 31.

Gastroenterology practices in the Austin area that provide GI care include but are not limited to:

- Austin Gastroenterology
- Texas Digestive Disease Consultants (TDDC)
- UT Health Austin – Dell Medical School Gastroenterology

If you would like any additional help choosing a new doctor outside of ARC for your gastrointestinal care, please contact your ARC primary care team.

I am truly grateful to you for entrusting me with your health and allowing me to be your gastroenterologist.

Sincerely,

Sujaata R. Dwadasi, MD
