

June 24, 2026

Dear Patient,

I hope this letter finds you in good health. I am writing to inform you of an upcoming change which may affect your health care. After 30 years of practicing internal medicine at Austin Regional Clinic (ARC), and after much thought and consideration, I have decided to retire from my regular practice at ARC Far West and transition to work intermittently, as needed, to help my ARC colleagues.

- **Friday, July 31, 2026, will be my last day seeing patients at ARC Far West.**

Please disregard this letter if you are not a regular patient of mine, your care at ARC will not change.

It is very important to me as well as ARC that you maintain continuous health care. ARC’s electronic medical record system allows your records to be accessed from any ARC location and ensures that both my notes and your medical records will be available for your future care.

At ARC it is our standard that we support our partners and take care of each other’s patients. I have complete trust that my colleagues are more than happy to welcome you to their practice and will take excellent care of your health. I **recommend these internal medicine (IM) and family medicine (FM) physicians and advanced practice clinicians (APCs) at the following ARC locations:**
